

The Federal Communications Commission

Dear The Federal Communications Commission,

I do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

My home landline is already taxed to death. The base rate is \$20.00, but taxes and various fees bring the total to \$30.00 per month. That is a 50% tax rate. That is ludicrous!! I do not want to see the same thing happen to my wireless phone.

I use my wireless phone for safety, security and convenience. I use it for approximately five minutes per month and don't want to pay more than my fair share so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair!

Sincerely,

Myra Claytor
